

## Guggenheim Funds Semiannual Report

### Guggenheim Taxable Municipal Managed Duration Trust

Beginning on January 1, 2021, paper copies of the Trust's annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website address to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change, and you need not take any action. At any time, you may elect to receive shareholder reports and other communications from the Trust electronically by contacting your financial intermediary or, if you are a registered shareholder and your shares are held with the Trust's transfer agent, Computershare, you may log into your Investor Center account at [www.computershare.com/investor](http://www.computershare.com/investor) and go to "Communication Preferences" or call 1-866-488-3559.

You may elect to receive paper copies of all future shareholder reports free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports; if you invest directly with the Trust, you may call Computershare at 1-866-488-3559. Your election to receive reports in paper form will apply to all funds held in your account with your financial intermediary or, if you invest directly, to all closed-end funds you hold.

... YOUR LINK TO THE LATEST, MOST UP-TO-DATE  
INFORMATION ABOUT THE GUGGENHEIM TAXABLE  
MUNICIPAL MANAGED DURATION TRUST

The shareholder report you are reading right now is just the beginning of the story.

Online at [guggenheiminvestments.com/gbab](https://guggenheiminvestments.com/gbab), you will find:

- Daily, weekly and monthly data on share prices, net asset values, distributions and more
- Monthly portfolio overviews and performance analyses
- Announcements, press releases and special notices
- Trust and adviser contact information

Guggenheim Partners Investment Management, LLC and Guggenheim Funds Investment Advisors, LLC are continually updating and expanding shareholder information services on the Trust's website in an ongoing effort to provide you with the most current information about how your Trust's assets are managed and the results of our efforts. It is just one more small way we are working to keep you better informed about your investment in the Trust.

**DEAR SHAREHOLDER**

We thank you for your investment in the Guggenheim Taxable Municipal Managed Duration Trust (the “Trust”). This report covers the Trust’s performance for the six-month period ended November 30, 2018.

The Trust’s primary investment objective is to provide current income with a secondary objective of long-term capital appreciation. Under normal market conditions, the Trust invests at least 80% of its net assets plus the amount of any borrowings for investment purposes (“Managed Assets”) in a diversified portfolio of taxable municipal securities, and may invest up to 20% of Managed Assets in securities other than taxable municipal securities.

All Trust returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2018, the Trust provided a total return based on market price of 2.56% and a total return based on NAV of 0.56%. As of November 30, 2018, the Trust’s market price of \$21.23 per share represented a discount of 3.72% to its NAV of \$22.05 per share.

Past performance is not a guarantee of future results. All NAV returns include the deduction of management fees, operating expenses, and all other Trust expenses. The market price of the Trust’s shares fluctuates from time to time, and may be higher or lower than the Trust’s NAV.

The Trust paid a monthly distribution of \$0.12573 per share. The most recent distribution represents an annualized rate of 7.11% based on the Trust’s closing market price of \$21.23 on November 30, 2018. There is no guarantee of future distributions or that the current returns and distribution rate will be maintained. The Trust’s distribution rate is not constant and the amount of distributions, when declared by the Trust’s Board of Trustees, is subject to change based on the performance of the Trust. Please see Note 2(f) on page 41 for more information on distributions for the period.

Guggenheim Funds Investment Advisors, LLC (“GFIA” or the “Adviser”) serves as the investment adviser to the Trust. Guggenheim Partners Investment Management, LLC (“GPIM” or the “Sub-Adviser”) serves as the Trust’s investment sub-adviser and is responsible for the management of the Trust’s portfolio of investments. Each of the Adviser and the Sub-Adviser is an affiliate of Guggenheim Partners, LLC (“Guggenheim”), a global diversified financial services firm.

We encourage shareholders to consider the opportunity to reinvest their distributions from the Trust through the Dividend Reinvestment Plan (“DRIP”), which is described in detail on page 59 of this report. When shares trade at a discount to NAV, the DRIP takes advantage of the discount by reinvesting the monthly distribution in common shares of the Trust purchased in the market at a price less than NAV. Conversely, when the market price of the Trust’s common shares is at a premium above NAV, the DRIP reinvests participants’ distributions in newly-issued common shares at the greater of NAV per share or 95% of the market price per share. The DRIP provides a cost-effective means to accumulate additional shares and enjoy the benefits of compounding returns over time. Since the Trust endeavors to maintain a steady monthly distribution rate, the DRIP effectively provides an income averaging technique, which

causes shareholders to accumulate a larger number of Trust shares when the share price is lower than when the price is higher.

To learn more about the Trust's performance and investment strategy for the semiannual period ended November 30, 2018, we encourage you to read the Questions & Answers section of this report, which begins on page 5.

We are honored that you have chosen the Guggenheim Taxable Municipal Managed Duration Trust as part of your investment portfolio. For the most up-to-date information regarding your investment, please visit the Trust's website at [guggenheiminvestments.com/gbab](http://guggenheiminvestments.com/gbab).

Sincerely,

Guggenheim Funds Investment Advisors, LLC  
December 31, 2018

*Guggenheim Taxable Municipal Managed Duration Trust (the “Trust”) is managed by a team of seasoned professionals at Guggenheim Partners Investment Management, LLC (“GPIM” or the “Sub-Adviser”). This team includes B. Scott Miner, Chairman of Investments and Global Chief Investment Officer; Anne B. Walsh, CFA, JD, Senior Managing Director and Chief Investment Officer, Fixed Income; Jeffrey S. Carefoot, CFA, Senior Managing Director and Portfolio Manager; and Allen Li, CFA, Managing Director and Portfolio Manager. In the following interview, the investment team discusses the market environment and the Trust’s strategy and performance for the six-month period ended November 30, 2018.*

**What is the Trust’s investment objective and how is it pursued?**

The Trust’s primary investment objective is to provide current income with a secondary objective of long-term capital appreciation. The Trust seeks to achieve its investment objectives by investing primarily in a diversified portfolio of taxable municipal securities. Under normal market conditions, the Trust will invest at least 80% of its net assets plus the amount of any borrowings for investment purposes (“Managed Assets”) in taxable municipal securities, including Build America Bonds (“BABs”), which qualify for federal subsidy payments under the American Recovery and Reinvestment Act of 2009 (the “Act”).

Under normal market conditions, the Trust may invest up to 20% of its Managed Assets in securities other than taxable municipal securities, including tax-exempt municipal securities, from which interest income is exempt from regular federal income tax (sometimes referred to as “tax-exempt municipal securities”), asset-backed securities (“ABS”), senior loans, and other income-producing securities.

At least 80% of the Trust’s Managed Assets are invested in securities that, at the time of investment, are investment grade quality. The Trust may invest up to 20% of its Managed Assets in securities that, at the time of investment, are below investment grade quality. Securities of below investment grade quality are regarded as having predominantly speculative characteristics with respect to capacity to pay interest and repay principal. The Trust does not invest more than 25% of its Managed Assets in municipal securities in any one state of origin or more than 15% of its Managed Assets in municipal securities that, at the time of investment, are illiquid.

**Most of the portfolio is invested in Build America Bonds. Has anything changed in that market?**

Following the 2009 financial crisis, BABs were created to support job-creating projects funded by the public finance market. Proceeds were commonly used to finance capital projects such as public schools, roads, transportation infrastructure, bridges, ports, and public buildings. Although interest received on BABs are subject to federal income tax, issuers of these securities are eligible to receive a subsidy from the U.S. Treasury of up to 35% of the interest paid on the bonds. As a result of this tax provision, interest rates on BABs were relatively competitive from the perspectives of both investors and issuers.

Because the relevant provisions of the Act were not extended, bonds issued after December 31, 2010 cannot qualify as BABs. Therefore, the number of BABs available in the market is limited. Nearly \$200 billion in BABs were issued before the program ended in 2010.

BABs have a feature that provides issuers the option to redeem the BABs if the U.S. government reduces the subsidy to the municipality. In 2013, the U.S. Congress mandated sequestration, which included a reduction to BABs' federal subsidy. Each year since 2013, federal subsidy payments have been cut by 6-9%. The subsidy cuts effectively increase borrowing costs for issuers and cause BABs to become callable. Nevertheless, the subsidy still in effect remains attractive to issuers, so relatively few BABs have been called.

Since the BABs program concluded, proposals to reauthorize BABs or enact similar legislation have not been successful. Domestic infrastructure spending could result in some sort of qualified infrastructure bonds, including a program similar to BABs as a supplement to other programs involving other taxable or tax-exempt municipal bonds.

**What were the significant events over the six-month period ended November 30, 2018 affecting Guggenheim's view of the economy and market environment?**

The market volatility seen in the final months of 2018 laid bare the tension that we expect to drive markets in the coming year. As we have highlighted previously, U.S. gross domestic product ("GDP") growth has been unsustainably strong, and the U.S. Federal Reserve (the "Fed") had no choice but to signal its intent to slow growth down in an effort to reduce inflationary pressures and stabilize the labor market. At the same time, risky asset valuations reflected market expectations that strong growth would continue well into the future.

The U.S. economy expanded at a rate of about 3% in 2018, which Guggenheim finds to be roughly twice the pace needed to limit further tightening of the labor market. Tepid supply-side growth means the economy's longer-run "speed limit" is lower than most people think at around 1.5%, with corresponding equilibrium payroll gains in the neighborhood of just 95,000 per month. This implies that a big growth slowdown will be needed for the Fed to fulfill its "maximum sustainable employment" objective. Like most forecasters, we envision a slowdown in 2019, but we expect growth to remain above potential for most of the year, resulting in further tightening of the labor market.

With growth set to slow, the prospects for further rate increases have become more uncertain, particularly in light of recent market volatility. As the Fed enters a more data-dependent phase, Guggenheim has changed its call for increases in the federal funds' rate in 2019 from four to two. A key element of the change in our forecast is that tighter financial conditions take some pressure off the Fed to raise the federal funds' rate. Essentially, the markets have done some tightening for the Fed, which limits the need for the Fed to hike rates as much. Our expectation for two rate hikes in 2019 is also based on the Fed continuing along its pre-set course for balance sheet runoff. Our work shows that balance sheet runoff equates to at least an extra 25 basis point hike in both 2018 and 2019.

Yields on U.S. Treasury securities have fallen in recent months, but we expect higher yields in 2019 as the Fed delivers more rate hikes than the market is pricing in. As with the last hiking cycle, we believe the market is underestimating the terminal rate, which argues for maintaining an underweight duration stance.

In the six months ending November 30, 2018, the U.S. Treasury curve continued its bear-flattening trend, as the yield on the two-year Treasury rose 36 basis points, from 2.43% to 2.79% and the yield on

the 10-year Treasury rose just 13 basis points, from 2.86% to 2.99%. The difference between the two-year Treasury and 10-year Treasury narrowed from 43 basis points to 20 basis points. At its December meeting, the Federal Open Market Committee (“FOMC”) raised the federal funds rate as expected to a target range of 2.25-2.50%, and added language around the future course of policy. The adjusted language suggests the Fed will be more data dependent going forward, saying that it will “continue to monitor global economic and financial developments and assess their implications for the economic outlook.”

The weak link in the U.S. economy is corporate balance sheets that are burdened with too much debt. One aspect of this story that is underappreciated by markets is the deterioration in working capital management relative to the past cycle. Our analysis shows that corporations’ short-term liabilities are rising as they take longer to pay their suppliers. This trend increases the interconnectedness of U.S. companies and could worsen the next downturn.

Market sentiment is dependent on the continuation of above potential growth, an outcome the Fed cannot tolerate indefinitely, and economic history tells us we should not expect. With this in mind, we continue to reduce credit exposure in the portfolio.

**How did the Trust perform for the six-month period ended November 30, 2018?**

All Trust returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2018, the Trust provided a total return based on market price of 2.56% and a total return based on NAV of 0.56%. As of November 30, 2018, the Trust’s market price of \$21.23 per share represented a discount of 3.72% to its NAV of \$22.05 per share. As of May 31, 2018, the Trust’s market price of \$21.44 per share represented a discount of 5.51% to its NAV of \$22.69 per share.

Past performance is not a guarantee of future results. All NAV returns include the deduction of management fees, operating expenses, and all other Trust expenses. The market price of the Trust’s shares fluctuates from time to time, and may be higher or lower than the Trust’s NAV.

The Trust paid a monthly distribution of \$0.12573 per share. The most recent distribution represents an annualized rate of 7.11% based on the Trust’s closing market price of \$21.23 on November 30, 2018.

There is no guarantee of future distributions or that the current returns and distribution rate will be maintained. The Trust’s distribution rate is not constant and the amount of distributions, when declared by the Trust’s Board of Trustees, is subject to change based on the performance of the Trust. Please see Note 2(f) on page 41 for more information on distributions for the period.

**Why did the Trust accrue excise tax during the six-month period ended November 30, 2018?**

As a registered investment company, the Trust is subject to a 4% excise tax that is imposed if the Trust does not distribute by the end of any calendar year at least the sum of (i) 98% of its ordinary income (not taking into account any capital gain or loss) for the calendar year and (ii) 98.2% of its capital gain in excess of its capital loss (adjusted for certain ordinary losses) for a one-year period generally ending on October 31 of the calendar year (unless an election is made to use the trust’s fiscal year). The Trust generally intends to distribute income and capital gains in the manner necessary to minimize (but not necessarily eliminate) the imposition of such excise tax. While the Trust’s income and capital gains can vary significantly from year to year, the Trust seeks to maintain more stable monthly distributions over time. The Trust may retain income or capital gains and pay excise tax when it is determined that doing so is in the best interest of shareholders. Management, in consultation with the Trust’s Board of Trustees, evaluates the costs of the excise tax relative to the benefits of retaining income and capital gains, including that such undistributed amounts (net of the excise tax paid) remain available for investment by the Trust and are available to supplement future distributions, which may facilitate the payment of more stable monthly distributions year over year.

**How did other markets perform in this environment for the six-month period ended November 30, 2018?**

<u>Index</u>	<u>Total Return</u>
ICE BofA ML Build America Bond Index	-0.59%
Bloomberg Barclays Taxable Municipal Index	-0.50%
Bloomberg Barclays Municipal Bond Index	0.42%
Bloomberg Barclays U.S. Aggregate Bond Index	-0.30%
Bloomberg Barclays U.S. Corporate High Yield Index	0.30%
Credit Suisse Leveraged Loan Index	1.21%
ICE BofA/ML ABS Master BBB-AA Index	1.33%
S&P 500 Index	3.02%

**What was notable in the municipal market for the six-month period ended November 30, 2018?**

From the beginning of 2018 through November, gross municipal issuance totaled \$312 billion, about 17% lower than the same period in 2017. Since February 2017, monthly issuance has increased year-over-year for only a handful of months. Supply declines reflect the elimination of advanced refunding bonds, ongoing policy uncertainties, and fewer refinancing opportunities.

Taxable municipal issuance has accounted for roughly 10% of the annual new-issue municipal supply, and in 2018 may total more than \$30 billion. Taxable supply is expected to increase as refunding activity shifts from the tax-exempt space.

The municipal market was estimated to be \$3.83 trillion at the end of the period, and growth has been restrained by U.S. banks cutting their positions amid lower corporate tax rates, which have reduced the

appeal of tax-free income, and less buying by the household sector. Flows to retail funds ebbed as the year wore on, and in November experienced \$5 billion in net outflows.

The tax-exempt municipal yield curve experienced a more parallel shift higher versus the bear flattener seen in the U.S. Treasury yield curve. With credit having richened further since the passage of tax cuts, this may be the time to focus on portfolio credit quality.

As interest rates slipped late in the period, municipal bond value began to rise, bringing period return for the Bloomberg Barclays Municipal Bond Index to 0.42%. This contributed to richer relative valuations of municipals versus U.S. Treasuries and investment grade, with slightly wider spreads.

The municipal market continues to digest the results of the 2018 midterm elections which had varying implications for state and local taxing capacity and approvals for over \$50 billion of bonds.

**Discuss Trust asset allocation and respective performance for the six-month period ended November 30, 2018.**

The Trust's asset allocation changed little over the period. The percentage of the Trust's long-term investments (excluding cash) that was invested in taxable municipal bond securities remained at approximately 90%.

The balance of the Trust's Managed Assets, equal to approximately 10% of the Trust's long-term investments, was invested in ABS, bank loans, and high yield corporate bonds, as well as non-taxable municipal securities, such as tax-exempt municipal bonds. This exposure to leveraged credit, including senior floating rate interests and high yield bonds, and to ABS, contributed to Trust performance, as these sectors had positive returns over the period with low correlation to the Trust's core holdings.

Positively influencing the Trust's return for the period were duration and yield curve positioning, sector allocation, the use of derivatives, and the use of leverage to enhance the Trust's returns. Performance was driven by favorable security selection and lower interest rate sensitivity than the ICE BofA/ML Build America Bond Index. Trust duration and credit quality remained stable over the period, helping manage risk. The Trust continued to focus on A-rated taxable municipals in credit selection. Given increased market volatility and idiosyncratic weakness, the Trust continues to seek attractive risk-adjusted investment opportunities.

The Trust used interest rate swaps during the period primarily as a buffer against potential increases in the Trust's funding costs. The benefit from the swaps was incidental to the Trust's performance for the period.

**Discuss the Trust's duration.**

The Sub-Adviser employs investment and trading strategies that seek to maintain the leverage-adjusted duration of the Trust's portfolio to generally less than 10 years. At November 30, 2018, the Trust's duration was approximately six years. (Duration is a measure of a bond's price sensitivity to changes in interest rates, expressed in years, and reflects the weighted average term to maturity of discounted bond cash flow.)

The Sub-Adviser may seek to manage the Trust's duration in a flexible and opportunistic manner based primarily on then-current market conditions and interest rate levels.

**Discuss the Trust's use of leverage.**

Since leverage adds to performance when the cost of leverage is less than the total return generated by investments, the use of leverage contributed to the Trust's total return based on NAV during the period. The Trust utilizes leverage as part of its investment strategy, to finance the purchase of additional securities that provide increased income and potentially greater appreciation potential to common shareholders than could be achieved from a portfolio that is not leveraged. Leverage will not exceed 33.33% of the Trust's Managed Assets.

As of November 30, 2018, the Trust's leverage was approximately 18% of Managed Assets (including the proceeds of leverage), compared with about 19% six months ago. The Trust currently employs leverage through reverse repurchase agreements with three counterparties and a credit facility with a major bank.

There is no guarantee that the Trust's leverage strategy will be successful. The Trust's use of leverage may cause the Trust's NAV and market price of common shares to be more volatile and could magnify the effect of any losses.

**Index Definitions**

Indices are unmanaged and reflect no expenses. It is not possible to invest directly in an index.

The Bloomberg Barclays Municipal Bond Index is considered representative of the broad market for investment grade, tax-exempt bonds with a maturity of at least one year.

The Bloomberg Barclays Taxable Municipal Index tracks performance of investment-grade fixed income securities issued by state and local governments whose income is not exempt from tax, issued generally to finance a project or activity that does not meet certain "public purpose/ use" requirements.

The Bloomberg Barclays U.S. Aggregate Bond Index is a broad-based flagship benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including U.S. Treasuries, government-related and corporate securities, mortgage-backed securities or "MBS" (agency fixed-rate and hybrid adjustable-rate mortgage, or "ARM", pass-throughs), asset-backed securities ("ABS"), and commercial mortgage-backed securities ("CMBS") (agency and non-agency).

The Bloomberg Barclays U.S. Corporate High Yield Index measures the U.S. dollar-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch, and S&P is Ba1/BB +/BB + or below.

The Credit Suisse Leveraged Loan Index is an index designed to mirror the investable universe of the U.S.-dollar-denominated leveraged loan market.

The ICE BofA/ML ABS Master BBB-AA Index is a subset of the BofA/ML U.S. Fixed Rate Asset Backed Securities Index including all securities rated AA1 through BBB3, inclusive.

The ICE BofA/ML Build America Bond Index is designed to track the performance of U.S. dollar-denominated Build America Bonds publicly issued by U.S. states and territories, and their political subdivisions, in the U.S. market.

The Standard & Poor's ("S&P 500") Index is a capitalization-weighted index of 500 stocks designed to measure the performance of the broad economy, representing all major industries and is considered a representation of U.S. stock market.

### **Risks and Other Considerations**

Investing involves risk, including the possible loss of principal and fluctuation of value.

The views expressed in this report reflect those of the portfolio managers only through the report period as stated on the cover. These views are expressed for informational purposes only and are subject to change at any time, based on market and other conditions, and may not come to pass.

These views may differ from views of other investment professionals at Guggenheim and should not be construed as research, investment advice, or a recommendation of any kind regarding the Trust or any issuer or security, do not constitute a solicitation to buy or sell any security and should not be considered specific legal, investment, or tax advice. The information provided does not take into account the specific objectives, financial situation, or particular needs of any specific investor.

The views expressed in this report may also include forward looking statements that involve risk and uncertainty, and there is no guarantee that any predictions will come to pass. Actual results or events may differ materially from those projected, estimated, assumed, or anticipated in any such forward-looking statements. Important factors that could result in such differences, in addition to the other factors noted with such forward-looking statements, include general economic conditions such as inflation, recession, and interest rates.

There can be no assurance that the Trust will achieve its investment objectives or that any investment strategies or techniques discussed herein will be effective. The value of the Trust will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value.

Performance data quoted represents past performance, which is no guarantee of future results and current performance may be lower or higher than the figures shown.

Please see [guggenheiminvestments.com/gbab](http://guggenheiminvestments.com/gbab) for a detailed discussion of the Trust's risks and considerations.

## CENTRALLY CLEARED INTEREST RATE SWAPS AGREEMENTS<sup>††</sup>

Counterparty	Exchange	Floating Rate Type	Floating Rate Index	Fixed Rate	Payment Frequency	Maturity Date	Notional Amount	Market Value (Depreciation) <sup>**</sup>	Unrealized Appreciation
Bank of America Merrill Lynch	CME	Receive	3-Month USD LIBOR	1.64%	Quarterly	10/16/19	\$(57,000,000)	\$596,844	\$596,844
Bank of America Merrill Lynch	CME	Receive	3-Month USD LIBOR	1.46%	Quarterly	10/17/19	(25,000,000)	302,681	302,681
									\$899,525

\* Non-income producing security.

\*\* Includes cumulative appreciation (depreciation). Variation margin is reported within the Statement of Assets and Liabilities.

† Value determined based on Level 1 inputs, unless otherwise noted — See Note 6.

†† Value determined based on Level 2 inputs, unless otherwise noted — See Note 6.

††† Value determined based on Level 3 inputs — See Note 6.

1 Security was fair valued by the Valuation Committee at November 30, 2018. The total market value of fair valued securities amounts to \$1,140,650, (cost \$1,564,131) or 0.3% of total net assets.

2 Affiliated issuer.

3 Rate indicated is the 7-day yield as of November 30, 2018.

4 All or a portion of these securities have been physically segregated in connection with borrowings, unfunded loan commitments, and reverse repurchase agreements. As of November 30, 2018, the total value of securities segregated was \$170,933,824.

5 Variable rate security. Rate indicated is the rate effective at November 30, 2018. In some instances, the effective rate is limited by a minimum rate floor or a maximum rate cap established by the issuer. The settlement status of a position may also impact the effective rate indicated. In some cases, a position may be unsettled at period end and may not have a stated effective rate. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based on a weighted average.

6 Security is a 144A or Section 4(a)(2) security. These securities have been determined to be illiquid and restricted under guidelines established by the Board of Trustees. The total market value of 144A or Section 4(a)(2) illiquid and restricted securities is \$7,012,627 (cost \$7,367,447), or 1.8% of total net assets — See Note 12.

7 Security is a 144A or Section 4(a)(2) security. These securities have been determined to be liquid under guidelines established by the Board of Trustees. The total market value of 144A or Section 4(a)(2) securities is \$11,480,946 (cost \$10,574,994), or 3.0% of total net assets.

8 Taxable municipal bond issued as part of the Build America Bond program.

9 Security is in default of interest and/or principal obligations.

## SCHEDULE OF INVESTMENTS (Unaudited) continued

November 30, 2018

The following table summarizes the inputs used to value the Trust's investments at November 30, 2018 (See Note 6 in the Notes to Financial Statements):

Investments in Securities (Assets)	Level 1 Quoted Prices	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Total
Common Stocks	\$ 123,420	\$ —	\$ 46,227*	\$ 169,647
Warrant	—	—	—*	—
Money Market Fund	4,964,021	—	—	4,964,021
Municipal Bonds	—	415,336,780	—	415,336,780
Corporate Bonds	—	23,872,813	—	23,872,813
Senior Floating Rate Interests	—	10,762,602	1,094,423*	11,857,025
Asset-Backed Securities	—	5,698,543	—	5,698,543
Interest Rate Swap Agreements**	—	899,525	—	899,525
<b>Total Assets</b>	<b>\$ 5,087,441</b>	<b>\$ 456,570,263</b>	<b>\$ 1,140,650</b>	<b>\$ 462,798,354</b>
<b>Investments in Securities (Liabilities)</b>				
Unfunded Loan Commitments (Note 11)	\$ —	\$ —	\$ 142,903	\$ 142,903

\* Includes securities with a market value of \$0.

\*\* This derivative is reported as unrealized appreciation/depreciation at period end.

The Trust may hold assets and/or liabilities in which the fair value approximates the carrying amount for financial statement purposes. As of November 30, 2018, reverse repurchase agreements of \$46,764,179 are categorized as Level 2 within the disclosure hierarchy — See Note 7.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period.

For the period ended November 30, 2018, there were no transfers between levels.

See notes to financial statements.

Targus Group International, Inc. 15.13% (1 month USD Libor + 11.50%, Rate Floor: 14.75%) due 05/24/16 <sup>1,2,3</sup>	-	-	-	-	-	-	213,492	-
<b>Warrant</b>								
Aspect Software, Inc. <sup>1</sup>	-	-	-	-	-	-	38,673	-
	\$ 475,926	\$ 8,477	\$ (5,756)	\$ 4,239	\$ (74,675)	\$ 403,972		\$ 36,276

\* Non-income producing security.

- 1 Security was fair valued by the Valuation Committee at November 30, 2018. The total market value of fair valued securities amounts to \$46,227, (cost \$475,118) or less than 0.1% of total net assets.
- 2 Security is in default of interest and/or principal obligations.
- 3 Variable rate security. Rate indicated is the rate effective at November 30, 2018. In some instances, the effective rate is limited by a minimum rate floor or a maximum rate cap established by the issuer. The settlement status of a position may also impact the effective rate indicated. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based on a weighted average.

See notes to financial statements.

See notes to financial statements.

- (a) Based on average shares outstanding.
- (b) Total return is calculated assuming a purchase of a common share at the beginning of the period and a sale on the last day of the period reported either at net asset value ("NAV") or market price per share. Dividends and distributions are assumed to be reinvested at NAV for NAV returns or the prices obtained under the Trust's Dividend Reinvestment Plan for market value returns. Total investment return does not reflect brokerage commissions. A return calculated for a period of less than one year is not annualized.
- (c) Excluding interest expense, the operating expense ratios for the six months ended November 30, 2018 and the years ended May 31 would be:

November 30, 2018	2018	2017	2016	2015	2014
0.95%	0.99%	1.00%	0.99%	1.02%	1.02%
	<hr style="width: 50%; margin: 0 auto;"/>	<hr style="width: 50%; margin: 0 auto;"/>	<hr style="width: 50%; margin: 0 auto;"/>	<hr style="width: 50%; margin: 0 auto;"/>	<hr style="width: 50%; margin: 0 auto;"/>

- (d) Calculated by subtracting the Trust's total liabilities (not including the borrowings) from the Trust's total assets and dividing by the borrowings.
- (e) Calculated by subtracting the Trust's total liabilities (not including the borrowings or reverse repurchase agreements) from the Trust's total assets and dividing by the borrowings.
- (f) Annualized.

*See notes to financial statements.*

**Note 1 – Organization**

Guggenheim Taxable Municipal Managed Duration Trust (the “Trust”) (formerly known as Guggenheim Build America Bonds Managed Duration Trust) was organized as a Delaware statutory trust on June 30, 2010. The Trust is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Trust’s primary investment objective is to provide current income with a secondary objective of long-term capital appreciation. There can be no assurance that the Trust will achieve its investment objectives. The Trust’s investment objectives are considered fundamental and may not be changed without shareholder approval.

**Note 2 – Significant Accounting Policies**

The Trust operates as an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

The following significant accounting policies are in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) and are consistently followed by the Trust. This requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. All time references are based on Eastern Time.

**(a) Valuation of Investments**

The Board of Trustees of the Trust (the “Board”) has adopted policies and procedures for the valuation of the Trust’s investments (the “Valuation Procedures”). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim’s investment management, administration, legal and compliance departments (the “Valuation Committee”), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Trust’s securities and/or other assets.

Valuations of the Trust’s securities are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed, to review the valuation of all assets which have been fair valued for reasonableness. The Trust’s officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used and valuations provided by the pricing services.

If the pricing service cannot or does not provide a valuation for a particular investment or such valuation is deemed unreliable, such investment is fair valued by the Valuation Committee.

Equity securities listed on an exchange (New York Stock Exchange (“NYSE”) or American Stock Exchange) are valued at the last quoted sale price as of the close of business on the NYSE, usually 4:00 p.m. on the valuation date. Equity securities listed on the NASDAQ market system are valued at the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the

last sale price. If there has been no sale on such exchange or NASDAQ on a given day, the security is valued at the closing bid price on that day.

Open-end investment companies are valued at their net asset value ("NAV") as of the close of business on the valuation date. Exchange-traded funds and closed-end investment companies are valued at the last quoted sales price.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to the close of the NYSE. The values of foreign securities are determined as of the close of such foreign markets or the close of the NYSE, if earlier. All investments quoted in foreign currencies are valued in U.S. dollars on the basis of the foreign currency exchange rates prevailing at the close of U.S. business at 4:00 p.m. Investments in foreign securities may involve risks not present in domestic investments. The Valuation Committee will determine the current value of such foreign securities by taking into consideration certain factors which may include those discussed above, as well as the following factors, among others: the value of the securities traded on other foreign markets, ADR trading, closed-end fund trading, foreign currency exchange activity, and the trading prices of financial products that are tied to foreign securities such as World Equity Benchmark Securities. In addition, under the Valuation Procedures, the Valuation Committee and Guggenheim Funds Investment Advisors, LLC ("GFIA", or the "Adviser") are authorized to use prices and other information supplied by a third party pricing vendor in valuing foreign securities.

Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker-dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition are valued at amortized cost, provided such amount approximates market value. Money market funds are valued at their NAV.

Typically, loans are valued using information provided by an independent third party pricing service which uses broker quotes in a non-active market. If the pricing service cannot or does not provide a valuation for a particular investment or such valuation is deemed unreliable, such investment is fair valued by the Valuation Committee.

The value of interest rate swap agreements entered into by the Trust are accounted for using the unrealized gain or loss on the agreements that is determined using the spread priced off the previous day's Chicago Mercantile Exchange ("CME") price.

Investments for which market quotations are not readily available are fair-valued as determined in good faith by GFIA, subject to review by the Valuation Committee, pursuant to methods established or ratified by the Board. Valuations in accordance with these methods are intended to reflect each security's (or asset's or liability's) "fair value". Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to market prices; sale prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics, or based on inputs such as anticipated cash flows or collateral, spread over U.S. Treasury securities, and other information analysis.

**(b) Investment Transactions and Investment Income**

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Interest income is recorded on an accrual basis. Paydown gains and losses on mortgage and asset-backed securities are treated as interest income. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized to interest income over the lives of the respective securities using the effective interest method.

Income from residual collateralized loan obligations is recognized using the effective interest method. At the time of purchase, management estimates the future expected cash flows and determines the effective yield and estimated maturity date based on the estimated cash flows. Subsequent to the purchase, the estimated cash flows are updated periodically and a revised yield is calculated prospectively.

**(c) Senior Loans**

Senior loans in which the Trust invests generally pay interest rates which are periodically adjusted by reference to a base short-term floating rate, plus a premium. These base lending rates are generally (i) the lending rate offered by one or more major European banks, such as the one-month or three-month London Inter-Bank Offered Rate ("LIBOR"), (ii) the prime rate offered by one or more major United States banks, or (iii) the bank's certificate of deposit rate. Senior floating rate interests often require prepayments from excess cash flows or permit the borrower to repay at its election. The rate at which the borrower repays cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown on the Schedule of Investments.

**(d) Interests in When-Issued Securities**

The Trust may purchase and sell interests in securities on a when-issued and delayed delivery basis, with payment and delivery scheduled for a future date. No income accrues to the Trust on such interests or securities in connection with such transactions prior to the date the Trust actually takes delivery of such interests or securities. These transactions are subject to market fluctuations and are subject to the risk that the value at delivery may be more or less than the trade date purchase price. Although the Trust will generally purchase these securities with the intention of acquiring such securities, it may sell such securities before the settlement date.

**(e) Currency Translations**

The accounting records of the Trust are maintained in U.S. dollars. All assets and liabilities initially expressed in foreign currencies are converted into U.S. dollars at prevailing exchange rates. Purchases and sales of investment securities, dividend and interest income, and certain expenses are translated at the rates of exchange prevailing on the respective dates of such transactions. Changes in the relationship of these foreign currencies to the U.S. dollar can significantly affect the value of the investments and earnings of the Trust. Foreign investments may also subject the Trust to foreign government exchange restrictions, expropriation, taxation, or other political, social or economic developments, all of which could affect the market and/or credit risk of the investments.

The Trust does not isolate that portion of the results of operations resulting from changes in the foreign exchange rates on investments from the fluctuations arising from changes in the market

prices of securities held. Such fluctuations are included with the net realized gain or loss and unrealized appreciation or depreciation on investments.

Foreign exchange realized gain or loss resulting from holding of a foreign currency, expiration of a currency exchange contract, difference in exchange rates between the trade date and settlement date of an investment purchased or sold, and the difference between dividends or interest actually received compared to the amount shown in the Trust's accounting records on the date of receipt, if any, is shown as net realized gains or losses on foreign currency transactions on the Trust's Statement of Operations.

Foreign exchange unrealized appreciation or depreciation on assets and liabilities, other than investments, if any, is shown as unrealized appreciation (depreciation) on foreign currency translation on the Trust's Statement of Operations.

#### **(f) Distributions to Shareholders**

The Trust declares and pays monthly distributions to common shareholders. These distributions consist of investment company taxable income, which generally includes qualified dividend income, ordinary income and short-term capital gains. Any net realized long-term capital gains are distributed annually to common shareholders. To the extent distributions exceed taxable income, the excess will be deemed a return of capital.

Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

#### **(g) Swaps**

A swap is an agreement to exchange the return generated by one instrument for the return generated by another instrument. The Trust may enter into swap agreements to manage its exposure to interest rates and/or credit risk, to generate income or to manage duration. Swaps are valued daily at current market value and the variation margin is included in the Statement of Assets and Liabilities. Gain or loss is realized on the termination date of the swap and is equal to the difference between the Trust's basis in the swap and the proceeds of the closing transaction, including any fees. Upon termination of a swap agreement, a payable to or receivable from swap counterparty is established on the Statement of Assets and Liabilities to reflect the net gain/loss, including interest income/expense, on terminated swap positions. The line item is removed upon settlement according to the terms of the swap agreement.

Realized gain (loss) upon termination of swap contracts is recorded on the Statement of Operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation (depreciation) of swap contracts. Net periodic payments received by the Trust are included as part of realized gain (loss) on the Statement of Operations.

#### **(h) Indemnifications**

Under the Trust's organizational documents, its Trustees and Officers are indemnified against certain liabilities arising out of the performance of their duties to the Trust. In addition, throughout the normal course of business, the Trust enters into contracts that contain a variety of

representations and warranties which provide general indemnifications. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust and/or its affiliates that have not yet occurred. However, based on experience, the Trust expects the risk of loss to be remote.

#### Note 3 – Derivatives

As part of its investment strategy, the Trust utilizes derivative instruments. These investments involve, to varying degrees, elements of market risk and risks in excess of the amounts recognized in the Statement of Assets and Liabilities. Valuation and accounting treatment of these instruments can be found under Accounting Policies in Note 2 of these Notes to Financial Statements.

Derivatives are instruments whose values depend on, or are derived from, in whole or in part, the value of one or more other assets, such as securities, currencies, commodities or indices. Derivative instruments may be used to increase investment flexibility (including to maintain cash reserves while maintaining exposure to certain other assets), for risk management (hedging) purposes, to facilitate trading, to reduce transaction costs and to pursue higher investment returns. Derivative instruments may also be used to mitigate certain investment risks, such as foreign currency exchange rate risk, interest rate risk and credit risk. U.S. GAAP requires disclosures to enable investors to better understand how and why a Trust uses derivative instruments, how these derivative instruments are accounted for and their effects on the Trust's financial position and results of operations.

The Trust may utilize derivatives for the following purposes:

**Duration:** the use of an instrument to manage the interest rate risk of a portfolio.

**Hedge:** an investment made in order to reduce the risk of adverse price movements in a security, by taking an offsetting position to protect against broad market moves.

#### Swaps

A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. A Trust utilizing over-the-counter ("OTC") swaps bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty or if the underlying asset declines in value.

Certain standardized swaps are subject to mandatory central clearing and are executed on a multilateral or other trade facility platform, such as a registered exchange. There is limited counterparty credit risk with respect to centrally-cleared swaps as the transaction is facilitated through a central clearinghouse, much like an exchange-traded futures contract. Upon entering into a centrally-cleared swap transaction, the Trust is required to deposit with its clearing broker an amount of cash or securities as an initial margin. Subsequent variation margin payments or receipts are made or received by the Trust, depending on fluctuations in the fair value of the reference entity. For Trusts utilizing interest rate swaps, the exchange bears the risk of loss.

Interest rate swaps involve the exchange by the Trust with another party for its respective commitment to pay or receive a fixed or variable interest rate on a notional amount of principal. Interest rate swaps are generally centrally-cleared, but central clearing does not make interest rate swap transactions risk free.

The following table represents the Trust's use and volume of interest rate swaps on a quarterly basis:

Use	Average Notional Amount	
	Pay	Receive
Hedge	\$ –	\$82,000,000

**Derivative Investment Holdings Categorized by Risk Exposure**

The following is a summary of the location of derivative investments on the Trust's Statement of Assets and Liabilities as of November 30, 2018:

Derivative Investment Type	Asset Derivatives
Interest Rate Contracts	Variation margin on swap agreements

The following table sets forth the fair value of the Trust's derivative investments categorized by primary risk exposure at November 30, 2018:

Asset Derivative Investments Value		
	Swaps Interest Rate Risk	Total Value at November 30, 2018
	\$ 899,525*	\$ 899,525

\* Includes cumulative appreciation (depreciation) on swap agreements as reported on the Schedule of Investments. Variation margin is reported within the Statement of Assets and Liabilities.

The following is a summary of the location of derivative investments on the Trust's Statement of Operations for the period ended November 30, 2018:

Derivative Investment Type	Location of Gain (Loss) on Derivatives
Interest Rate Contracts	Net realized gain (loss) on swap agreements Net change in unrealized appreciation (depreciation) on swap agreements

The following is a summary of the Trust's realized gain (loss) and change in unrealized appreciation (depreciation) on derivative investments recognized on the Statement of Operations categorized by primary risk exposure for the period ended November 30, 2018:

Realized Gain (Loss) on Derivative Investments Recognized on the Statement of Operations		
Primary Risk Exposure	Swaps Interest Rate Risk	Total
Interest Rate Risk	\$ 334,004	\$ 334,004

**Net Change in Unrealized Appreciation (Depreciation) on Derivative Investments  
Recognized on the Statement of Operations**

Primary Risk Exposure	Swaps Interest Rate Risk	Total
Interest Rate Risk	\$ (213,719)	\$ (213,719)

In conjunction with the use of derivative instruments, the Trust is required to maintain collateral in various forms. The Trust uses, where appropriate, depending on the financial instrument utilized and the broker involved, margin deposits at the broker, cash and/or securities segregated at the custodian bank, discount notes or repurchase agreements allocated to the Trust.

The Trust has established counterparty credit guidelines and enters into transactions only with financial institutions of investment grade or better. The Trust monitors the counterparty credit risk.

**Note 4 – Offsetting**

In the normal course of business, the Trust enters into transactions subject to enforceable master netting arrangements or other similar arrangements. Generally, the right to offset in those agreements allows the Trust to counteract the exposure to a specific counterparty with collateral received or delivered to that counterparty based on the terms of the arrangements. These arrangements provide for the right to liquidate upon the occurrence of an event of default, credit event upon merger or additional termination event.

In order to better define their contractual rights and to secure rights that will help the Trust mitigate their counterparty risk, the Trust may enter into an International Swaps and Derivatives Association Inc. Master Agreement (“ISDA Master Agreement”) or similar agreement with their derivative contract counterparties. An ISDA Master Agreement is a bilateral agreement between a Trust and a counterparty that governs OTC derivatives, including foreign exchange contracts, and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Trust and the counterparty. For financial reporting purposes, cash collateral that has been pledged to cover obligations of the Trust and cash collateral received from the counterparty, if any, is reported separately on the Statement of Assets and Liabilities as segregated cash with broker/receivable or received as collateral by the Trust in connection with an OTC derivative subject to an ISDA Master Agreement generally may not be invested, sold or rehypothecated by the counterparty or the Trust, as applicable, absent an event of default under such agreement, in which case such collateral generally may be applied towards obligations due to and payable by such counterparty or the Trust, as applicable. Generally, the amount of collateral due from or to a counter party must exceed a minimum transfer amount threshold (e.g., \$300,000) before a transfer is required to be made. To the extent amounts due to the Trust from its counterparties are not fully collateralized, contractually or otherwise, the Trust bears the risk of loss from counterparty nonperformance. The Trust attempts to

mitigate counterparty risk by only entering into agreements with counterparties that it believes to be of good standing and by monitoring the financial stability of those counterparties. For financial reporting purposes, the Trust does not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statement of Assets and Liabilities.

The following table presents secured financing transactions that are subject to enforceable netting arrangements and offset in the Statement of Assets and Liabilities in conformity with U.S. GAAP.

Instrument	Gross Amounts of Recognized Liabilities <sup>1</sup>	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amount of Liabilities Presented on the Statement of Assets and Liabilities	Gross Amounts Not Offset in the Statement of Assets and Liabilities		Net Amount
				Financial Instruments	Cash Collateral Pledged	
Reverse Repurchase Agreements	\$46,764,179	\$ –	\$46,764,179	\$46,764,179	\$ –	\$ –

<sup>1</sup> Centrally cleared swaps are excluded from these reported amounts.

The following table presents deposits held by others in connection with derivative investments as of November 30, 2018. The Trust has the right to offset these deposits against any related liabilities outstanding with each counterparty.

Counterparty	Asset Type	Cash Pledged	Cash Received
Bank of America Merrill Lynch	Interest Rate Swap agreements	\$119,496	\$78,801

#### Note 5 – Fees and Other Transactions with Affiliates

Pursuant to an Investment Advisory Agreement between the Trust and the Adviser, the Adviser furnishes offices, necessary facilities and equipment, provides administrative services, oversees the activities of Guggenheim Partners Investment Management, LLC (“GPIM” or “Sub-Adviser”), provides personnel including certain officers required for the Trust’s administrative management, and compensates the officers and trustees of the Trust who are affiliates of the Adviser. As compensation for these services, the Trust pays the Adviser a fee, payable monthly, in an amount equal to 0.60% of the Trust’s average daily managed assets.

Pursuant to a Sub-Advisory Agreement among the Trust, the Adviser and GPIM, GPIM under the supervision of the Trust’s Board and the Adviser, provides a continuous investment program for the Trust’s portfolio; provides investment research; makes and executes recommendations for the purchase and sale of securities; and provides certain facilities and personnel, including certain officers required for its administrative management and pays the compensation of all officers and trustees of the Trust who are GPIM’s affiliates. As compensation for its services, the Adviser pays GPIM a fee, payable monthly, in an annual amount equal to 0.30% of the Trust’s average daily managed assets.

For purposes of calculating the fees payable under the foregoing agreements, average daily managed assets means the average daily value of the Trust’s total assets minus the sum of its accrued liabilities. Total assets means all of the Trust’s assets and is not limited to its investment securities. Accrued liabilities means all of the Trust’s liabilities other than borrowings for investment purposes.

Certain officers of the Trust may also be officers, directors and/or employees of the Adviser or GPIM. The Trust does not compensate its officers who are officers, directors and/or employees of the aforementioned firms.

GFIA engages external service providers to perform other necessary services for the Trust, such as audit and accounting related services, legal services, custody, printing and mailing, among others, on a pass through basis.

MUFG Investor Services (US), LLC ("MUIS") acts as the Trust's administrator and accounting agent. As administrator and accounting agent, MUIS is responsible for maintaining the books and records of the Trust's securities and cash. The Bank of New York Mellon Corp. ("BNY") acts as the Trust's custodian. As custodian, BNY is responsible for the custody of the Trust's assets. For providing the aforementioned services, MUIS and BNY are entitled to receive a monthly fee equal to an annual percentage of the Trust's average daily managed assets, subject to certain minimum monthly fees, and out of pocket expenses.

#### Note 6 – Fair Value Measurement

In accordance with U.S. GAAP, fair value is defined as the price that the Trust would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3 — significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

Independent pricing services are used to value a majority of the Trust's investments. When values are not available from a pricing service, they may be computed by the Trust's Adviser or an affiliate. In any event, values may be determined using a variety of sources and techniques, including: market prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics or based on inputs such as anticipated cash flows or collateral, spread over U.S. Treasury securities, and other information and analysis. A significant portion of the Trust's assets and liabilities are categorized as Level 2, as indicated in this report.

Indicative quotes from broker-dealers, adjusted for fluctuations in criteria such as credit spreads and interest rates, may be also used to value the Trust's assets and liabilities, i.e. prices provided by a broker-dealer or other market participant who has not committed to trade at that price. Although

indicative quotes are typically received from established market participants, the Trust may not have the transparency to view the underlying inputs which support the market quotations. Significant changes in an indicative quote would generally result in significant changes in the fair value of the security.

Certain fixed income securities are valued by obtaining a monthly indicative quote from a broker-dealer, adjusted for fluctuations in criteria such as credit spreads and interest rates. The Trust's fair valuation guidelines categorize these securities as Level 3.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

#### Note 7 – Reverse Repurchase Agreements

The Trust may enter into reverse repurchase agreements as part of its financial leverage strategy. Under a reverse repurchase agreement, the Trust temporarily transfers possession of a portfolio instrument to another party, such as a bank or broker—dealer, in return for cash. At the same time, the Trust agrees to repurchase the instrument at an agreed upon time and price, which reflects an interest payment. Such agreements have the economic effect of borrowings. The Trust may enter into such agreements when it is able to invest the cash acquired at a rate higher than the cost of the agreement, which would increase earned income. When the Trust enters into a reverse repurchase agreement, any fluctuations in the market value of either the instruments transferred to another party or the instruments in which the proceeds may be invested would affect the market value of the Trust's assets. As a result, such transactions may increase fluctuations in the market value of the Trust's assets. For the period ended November 30, 2018, the average daily balance for which reverse repurchase agreements were outstanding amounted to \$46,196,088. The weighted average interest rate was 2.82%. As of November 30, 2018, there was \$46,764,179 in reverse repurchase agreements outstanding.

As of November 30, 2018, the Trust had outstanding reverse repurchase agreements with various counterparties. Details of the reverse repurchase agreements by counterparty are as follows:

Counterparty	Range of Interest Rates	Maturity Dates	Face Value
Royal Bank of Canada	3.06%	02/01/2019	\$33,911,028
BNP Paribas Bank	2.88%*	Open Maturity	12,397,412
JPMorgan Chase & Co.	2.25% - 2.75%*	12/21/2018	455,739
			\$46,764,179

\* The rate is adjusted periodically by the counterparty, subject to approval by the Adviser, and is not based upon a set reference rate and spread. Rate indicated is the rate effective at November 30, 2018.

The following is a summary of the remaining contractual maturities of the reverse repurchase agreements outstanding as of November 30, 2018 aggregated by asset class of the related collateral pledged by the Trust:

	Overnight and Continuous	Up to 30 days	31-90 days	Greater than 90 days	Total
Municipal Bonds	\$12,397,412	\$ —	\$33,911,028	\$ —	\$46,308,440
Corporate Bonds	—	455,739	—	—	455,739
<b>Total Borrowings</b>	<b>\$12,397,412</b>	<b>\$455,739</b>	<b>\$33,911,028</b>	<b>\$ —</b>	<b>\$46,764,179</b>
<b>Gross amount of recognized liabilities for reverse repurchase agreements</b>	<b>\$12,397,412</b>	<b>\$455,739</b>	<b>\$33,911,028</b>	<b>\$ —</b>	<b>\$46,764,179</b>

#### Note 8 – Borrowings

On February 27, 2015, the Trust entered into a \$125,000,000 credit facility agreement with an approved lender. Under the credit facility, the interest rate on the amount borrowed was based on the 3 month LIBOR plus 85 basis points, and an unused commitment fee of 25 basis points was charged on the difference between the amount available to borrow under the credit agreement and the actual amount borrowed, if the Trust borrows less than 50% available. On February 27, 2017, the terms were amended such that the unused commitment fee applies if the Trust borrows less than 75% of the amount available. On March 15, 2018, the terms were further amended such that the interest rate on the amount borrowed is based on the 1 Month USD LIBOR plus 80 basis points. On June 15, 2018, the terms were amended such that the interest rate on the amount borrowed is based on the 3 month LIBOR plus 75 basis points, and an unused commitment fee of 20 basis points is charged on the difference between the amount available to borrow under the credit agreement and the actual amount borrowed. As of November 30, 2018, there was \$35,509,544 outstanding in connection with the Trust's credit facility. The average daily amount of borrowings on the credit facilities during the period was \$37,733,588 with a related average interest rate of 3.18%. The maximum amount outstanding during the period ended was \$49,509,544. As of November 30, 2018, the total value of securities segregated and pledged as collateral in connection with borrowings was \$42,686,212.

The Trust's current credit facility agreement includes usual and customary covenants. These covenants impose on the Trust asset coverage requirements, collateral requirements, investment strategy requirements, and certain financial obligations. These covenants place limits or restrictions on the Trust's ability to (i) enter into additional indebtedness with a party other than the counterparty, (ii) change its fundamental investment policy, or (iii) pledge to any other party, other than to the counterparty, securities owned or held by the Trust over which the counterparty has a lien. In addition, the Trust is required to deliver financial information to the counterparty within established deadlines, maintain an asset coverage ratio (as defined in Section 18(g) of the 1940 Act) greater than 300%, comply with the rules of the stock exchange on which its shares are listed, and maintain its classification as a "closed-end management investment company" as defined in the 1940 Act.

There is no guarantee that the Trust's leverage strategy will be successful. The Trust's use of leverage may cause the Trust's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

**Note 9 – Federal Income Tax Information**

The Trust intends to continue to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies.

The Trust is subject to an excise tax of 4% of the amount by which 98% of the Trust's annual taxable income and 98.2% of net realized gains exceed the distributions from such taxable income and realized gains for the calendar year.

Tax positions taken or expected to be taken in the course of preparing the Trust's tax returns are evaluated to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Management has analyzed the Trust's tax positions taken, or to be taken, on federal income tax returns for all open tax years, and has concluded that no provision for income tax is required in the Trust's financial statements. The Trust's federal tax returns are subject to examination by the Internal Revenue Service for a period of three years after they are filed.

At November 30, 2018, the cost of securities for Federal income tax purposes, the aggregate gross unrealized appreciation for all securities for which there was an excess of value over tax cost, and the aggregate gross unrealized depreciation for all securities for which there was an excess of tax cost over value were as follows:

Tax Cost	Tax Unrealized Appreciation	Tax Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
415,505,051	48,950,346	(1,657,043)	47,293,303

As of May 31, 2018, (the most recent fiscal year end for federal income tax purposes) tax components of accumulated earnings were as follows:

Undistributed Ordinary Income	Accumulated Long-Term Capital Gain	Net Unrealized Appreciation (Depreciation)	Accumulated Capital and Other Losses	Total
\$5,843,901	\$1,001,168	\$57,516,976	\$0	\$64,362,045

For the year ended May 31, 2018, (the most recent fiscal year end for federal income tax purposes) the tax character of distributions paid to shareholders as reflected in the Statement of Changes in Net Assets was as follows:

Ordinary Income	Long-Term Capital Gain	Total Distributions
\$23,544,443	\$2,732,584	\$26,277,027

Note: For federal income tax purposes, short-term capital gain distributions are treated as ordinary income distributions.

For all open tax years and all major jurisdictions, management of the Trust has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Uncertain tax positions are tax positions taken or expected to be taken in the course of preparing the Trust's tax returns that would not meet a more—likely—than not threshold of being sustained by the

applicable tax authority and would be recorded as a tax expense in the current year. Open tax years are those that are open for examination by taxing authorities (i.e. generally the last four tax year ends and the interim tax period since then).

#### Note 10 – Securities Transactions

For the period ended November 30, 2018, the cost of purchases and proceeds from sales of investment securities, excluding government securities, short-term investments and derivatives transactions, were \$15,664,384 and \$18,128,831, respectively.

The Trust is permitted to purchase or sell securities from or to certain affiliated funds under specified conditions outlined in procedures adopted by the Board. The procedures have been designed to ensure that any purchase or sale of securities by the Trust from or to another fund or portfolio that is or could be considered an affiliate by virtue of having a common investment adviser (or affiliated investment advisers), common Trustees and/or common officers complies with Rule 17a-7 of the 1940 Act. Further, as defined under these procedures, each transaction is effected at the current market price to save costs, where permissible. For the period November 30, 2018, the Trust engaged in purchases and sales of securities, pursuant to Rule 17a-7 of the 1940 Act, as follows:

	Purchases	Sales	Realized Gain
	\$ –	\$1,012,500	\$12,500

#### Note 11 – Unfunded Loan Commitments

Pursuant to the terms of certain loan agreements, the Trust held unfunded loan commitments as of November 30, 2018. The Trust is obligated to fund these loan commitments at the borrower's discretion. The Trust reserves against such contingent obligations by designating cash, liquid securities, and liquid term loans as a reserve. As of November 30, 2018, the total amount segregated in connection with reverse repurchase agreements and unfunded loan commitments was \$128,247,612.

The unfunded loan commitments as of November 30, 2018, were as follows:

Borrower	Maturity Date	Face Amount	Value
Lytx, Inc.	08/31/22	\$ 26,316	\$ 2,468
Solera LLC	03/03/21	2,212,500	140,435
		\$ 2,238,816	\$ 142,903

#### Note 12 – Restricted Securities:

The securities below are considered illiquid and restricted under guidelines established by the Board:

Restricted Securities	Acquisition Date	Cost	Value
Central Storage Safety Project Trust 4.82% due 02/01/38	02/02/18	\$ 7,268,146	\$ 6,919,878
Icon Brand Holdings LLC 2012-1A, 4.23% due 01/25/43	07/13/16	99,301	92,749
		\$ 7,367,447	\$ 7,012,627

## Note 13 – Capital

**Common Shares**

The Trust has an unlimited amount of common shares, \$0.01 par value, authorized and 17,416,307 issued and outstanding. Transactions in common shares were as follows:

	Period Ended November 30, 2018	Year Ended May 31, 2018
Beginning Shares	17,416,307	17,416,307
Shares issued through dividend reinvestment	–	–
Ending shares	17,416,307	17,416,307

## Note 14 – Recent Regulatory Reporting Updates

In August 2018, the U.S. Securities and Exchange Commission adopted amendments to certain disclosure requirements under Regulation S-X to conform to U.S. GAAP, including: (i) an amendment to require presentation of the total, rather than the components, of distributable earnings on the Statements of Assets and Liabilities; and (ii) an amendment to require presentation of the total, rather than the components, of distributions to shareholders, except for tax return of capital distributions, on the Statements of Changes in Net Assets.

As of November 30, 2018, management has implemented the amendments to Regulation S-X, which did not have a material impact on the Trust's financial statements and related disclosures nor did it impact the Trust's net assets or results of operations.

## Note 15 – Recent Accounting Pronouncements

In March 2017, the Financial Accounting Standards Board issued an Accounting Standards Update, ASU 2017-08, Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20), Premium Amortization on Purchased Callable Debt Securities (the “2017 ASU”) which amends the amortization period for certain purchased callable debt securities held at a premium, shortening such period to the earliest call date. The 2017 ASU does not require any accounting change for debt securities held at a discount; the discount continues to be amortized to maturity. The 2017 ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. At this time, management is evaluating the implications of these changes on the financial statements.

In August 2018, the Financial Accounting Standards Board issued an Accounting Standards Update, ASU 2018-13, Fair Value Measurement (Topic 820), Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement (the “2018 ASU”) which adds, modifies and removes disclosure requirements related to certain aspects of fair value measurement. The 2018 ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. At this time, management is evaluating the implications of these changes on the financial statements.

## Note 16 – Subsequent Events

The Trust evaluated subsequent events through the date the financial statements were available for issue and determined there were no additional material events that would require adjustment to or disclosure in the Trust's financial statements.

**Federal Income Tax Information**

In January 2019, you will be advised on IRS Form 1099 DIV or substitute 1099 DIV as to the federal tax status of the distributions received by you in the calendar year 2018.

**Sector Classification**

Information in the “Schedule of Investments” is categorized by sectors using sector-level classifications used by Bloomberg Industry Classification System, a widely recognized industry classification system provider. In the Trust’s registration statement, the Trust has investment policies relating to concentration in specific industries. For purposes of these investment policies, the Trust usually classifies industries based on industry-level classifications used by widely recognized industry classification system providers such as Bloomberg Industry Classification System, Global Industry Classification Standards and Barclays Global Classification Scheme.

-----------------------	------------------------	------------	---

\* The business address of each officer is c/o Guggenheim Investments, 227 West Monroe Street, Chicago, IL 60606.

\*\* Each officer serves an indefinite term, until his or her successor is duly elected and qualified. The date reflects the commencement date upon which the officer held any officer position with the Trust.

Unless the registered owner of common shares elects to receive cash by contacting Computershare Trust Company, N.A. (the "Plan Administrator"), all dividends declared on common shares of the Trust will be automatically reinvested by the Plan Administrator for shareholders in the Trust's Dividend Reinvestment Plan (the "Plan"), in additional common shares of the Trust. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Trust for you. If you wish for all dividends declared on your common shares of the Trust to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Trust declares a dividend or other distribution (together, a "Dividend") payable in cash, nonparticipants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Trust ("Newly Issued Common Shares") or (ii) by purchase of outstanding common shares on the open market ("Open-Market Purchases") on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Trust. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Trust reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Trust Company, N.A., P.O. **Privacy Principles of Guggenheim Taxable Municipal Managed Duration Trust for Shareholders**

The Trust is committed to maintaining the privacy of its shareholders and to safeguarding its non-public personal information. The following information is provided to help you understand what personal information the Trust collects, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, the Trust does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Trust. The Trust does not disclose any non-public personal information about its shareholders or former shareholders to anyone except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

The Trust restricts access to non-public personal information about the shareholders to Guggenheim Funds Investment Advisors, LLC employees with a legitimate business need for the information. The Trust maintains physical, electronic and procedural safeguards designed to protect the non-public personal information of its shareholders.

**Questions concerning your shares of Guggenheim Taxable Municipal Managed Duration Trust?**

- If your shares are held in a Brokerage Account, contact your Broker.
- If you have physical possession of your shares in certificate form, contact the Trust's Transfer Agent: *Computershare Trust Company, N.A., P.O. Box 30170 College Station, TX 77842-3170; (866) 488-3559 or online at [www.computershare.com/investor](http://www.computershare.com/investor)*

This report is sent to shareholders of Guggenheim Taxable Municipal Managed Duration Trust for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Trust or of any securities mentioned in this report.

A description of the Trust's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Trust at (888) 991-0091.

Information regarding how the Trust voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling (888) 991-0091, by visiting the Trust's website at [guggenheiminvestments.com/gbab](http://guggenheiminvestments.com/gbab) or by accessing the Trust's Form N-PX on the U.S. Securities and Exchange Commission's (SEC) website at [www.sec.gov](http://www.sec.gov).

The Trust files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Q is available on the SEC website at [www.sec.gov](http://www.sec.gov) or at [guggenheiminvestments.com/gbab](http://guggenheiminvestments.com/gbab). The Trust's Form N-Q may also be viewed and copied at the SEC's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

**Notice to Shareholders**

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Trust from time to time may purchase shares of its common stock in the open market or in private transactions.

## ABOUT THE FUND MANAGERS

---

### **Guggenheim Partners Investment Management, LLC**

Guggenheim Partners Investment Management, LLC (“GPIM”) is an indirect subsidiary of Guggenheim Partners, LLC, a diversified financial services firm. The firm provides capital markets services, portfolio and risk management expertise, wealth management, and investment advisory services. Clients of Guggenheim Partners, LLC subsidiaries are an elite mix of individuals, family offices, endowments, foundations, insurance companies and other institutions.

### **Investment Philosophy**

GPIM’s investment philosophy is predicated upon the belief that thorough research and independent thought are rewarded with performance that has the potential to outperform benchmark indexes with both lower volatility and lower correlation of returns over time as compared to such benchmark indexes.

### **Investment Process**

GPIM’s investment process is a collaborative effort between various groups including the Portfolio Construction Group, which utilize proprietary portfolio construction and risk modeling tools to determine allocation of assets among a variety of sectors, and its Sector Specialists, who are responsible for security selection within these sectors and for implementing securities transactions, including the structuring of certain securities directly with the issuers or with investment banks and dealers involved in the origination of such securities.
