## Performance History As of 7.31.2019

	Market Price	NAV
2019 YTD	13.79%	6.18%
1 Year	19.56%	8.29%
3 Year	7.67%	4.76%
5 Year	9.76%	6.40%
Since Inception	9.54%	9.10%
2018	3.47%	1.83%
2017	13.45%	8.83%
2016	7.77%	8.52%
2015	3.60%	1.44%
2014	20.88%	19.55%

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. Since Inception returns assume a purchase of common shares at each Fund's initial offering price for market price returns or the Fund's initial net asset value (NAV) for NAV returns. Returns for periods of less than one year are not annualized. All distributions are assumed to be reinvested either in accordance with the dividend reinvestment plan (DRIP) for market price returns or NAV for NAV returns. Until the DRIP price is available from the Plan Agent, the market price returns reflect the reinvestment at the closing market price on the last business day of the month. Once the DRIP is available around mid-month, the market price returns are updated to reflect reinvestment at the DRIP price. All returns include the deduction of management fees, operating expenses and all other fund expenses, and do not reflect the deduction of brokerage commissions or taxes that investors may pay on distributions or the sale of shares.

Distributions are not guaranteed and are subject to change.

<sup>1</sup>Distributions may be paid from sources of income other than ordinary income, such as short-term capital gains, long-term capital gains or return of capital. Based on our current estimates as of July 2019, we anticipate that the current distribution has been paid from the following source(s): ordinary income. If a distribution consists of something other than ordinary income, Shareholders of record, as of the applicable record date, will be sent a Section 19(a) notice with the anticipated source(s) of the distribution. Section 19(a) notices are provided for informational purposes only and not for tax reporting purposes. Please note the final determination of the source and tax characteristics of all distributions in a particular year will be made after the end of the year. This information is not legal or tax advice. Consult a professional regarding your specific legal or tax matters.

## Investment Objective

The Trust's primary investment objective is to provide current income with a secondary objective of long-term capital appreciation.

Source: BlackRock Solutions and Bloomberg Barclays. The fund credit quality ratings are measured on a scale that generally ranges from AAA (highest) to D (lowest). All securities except for those labeled "Not Rated" or "Other Fixed Income" have been rated by a Nationally Recognized Statistical Rating Organization ("NRSRO"). For purposes of this presentation, when ratings are available from more than one NRSRO, the highest rating is used. Guggenheim Investments converts ratings to the equivalent S&P rating. The index uses the Barclays index methodology. Unrated securities do not necessarily indicate low credit quality.

**GUGGENHEIM FUNDS INVESTMENT ADVISORS**

Guggenheim Investments represents the investment management businesses of Guggenheim Partners, LLC ("Guggenheim"), which includes Guggenheim Funds Investment Advisors, LLC ("GFIA") the investment adviser to the referenced fund. Collectively Guggenheim Investments has a long, distinguished history of serving institutional investors, ultra-high-net-worth individuals, family offices and financial intermediaries. Guggenheim Investments offers clients a wide range of differentiated capabilities built on a proven commitment to investment excellence.

**GUGGENHEIM PARTNERS INVESTMENT MANAGEMENT**

Guggenheim Partners Investment Management, LLC ("GPIM"), a subsidiary of Guggenheim Partners, LLC, is an investment manager specializing in innovative investment strategies that aim to add alpha relative to benchmarks in both up and down markets. GPIM's investment philosophy is predicated upon the belief that thorough research and independent thought are rewarded with performance that has the potential to outperform benchmark indexes with both lower volatility and lower correlation of returns over time as compared to such benchmark indexes. GPIM manages investments for a mix of individuals, family offices, endowments, foundations, insurance companies and other institutions. GPIM, Guggenheim Funds Investment Advisors, LLC and Guggenheim Funds Distributors, LLC are affiliates of Guggenheim Partners, LLC.

<sup>2</sup> Latest declared distribution per share annualized and divided by the current share price. <sup>3</sup> Represents the amount of financial leverage the Fund currently employs as a percentage of total Fund assets. <sup>4</sup> Expense ratios are annualized and reflect the Fund's operating expense, including interest expense, or in the case of a fund with a fee waiver, net operating expense, as of the most recent annual or semi-annual report. The expense ratio, based on common assets, excluding interest expense was 0.95%.

All data as of 7/31/2019 or otherwise noted. Data is subject to change on a daily basis. The securities mentioned are provided for informational purposes only and should not be deemed as a recommendation to buy or sell. **Net asset value (NAV)** is the value of all fund assets (less liabilities) divided by the number of common shares outstanding. **Market price** is the price at which a fund trades on an exchange. Shareholders purchase and sell closed-end funds at the market price, not NAV. A closed-end fund's **premium/discount** valuation is calculated as market price minus NAV, divided by NAV.

**Risks and Other Considerations** There can be no assurance that the Trust will achieve its investment objectives. The value of any closed-end fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value. The Trust is subject to investment risk, including the possible loss of the entire principal amount invested. **Build America Bonds Risk:** BABs are a new form of municipal financing, and the market is smaller, less diverse, and potentially less liquid than other types of municipal securities. In addition, because the relevant provisions of the American Recovery and Reinvestment Act of 2009 were not extended, bonds issued after December 31, 2010 cannot not qualify as BABs. Therefore, the number of BABs available in the market is limited. BABs may be less actively traded which may negatively affect the value of BABs held by the Trust. **Credit Risk:** Credit risk is the risk that one or more credit securities in the Trust's portfolio will decline in price, or fail to pay interest or principal when due, because the issuer of the obligation experiences a decline in its financial status. **Interest Rate Risk:** Interest rate risk is the risk that credit securities will decline in value because of changes in market interest rates. When market interest rates rise, the market value of credit securities generally will fall. **Below Investment-Grade Securities Risk:** The Trust may invest in below investment-grade quality ("high yield" or "junk bonds") which are regarded as having predominately speculative characteristics with respect to the issuer's capacity to pay interest and repay principal when due. In addition, the Trust is subject to additional risks and other considerations not mentioned above. **This material is not intended as a recommendation or as investment advice of any kind, including in connection with rollovers, transfers, and distributions.
