

INVESTMENT STRATEGY

The Fund seeks to provide capital growth and interest income over time by investing globally in debt securities. Debt securities are securities issued by governments/governmental bodies, corporations and special purpose entities which generally pay interest at an agreed rate over a defined period of time. The primary geographical focus of the Fund's investment is the U.S., Canada and Europe, with a particular concentration on the U.S.

Guggenheim Core Fixed Income UCITS Fund

Fund Highlights

The Fund employs a total-return approach focused on achieving attractive risk-adjusted excess returns versus the Bloomberg Barclays US Aggregate Index. The strategy is designed to use the collective insight of our 180+ member fixed income investment team and invests across the full spectrum of the fixed income market, including Asset Backed Securities ("ABS"), Residential Mortgage Backed Securities ("RMBS"), Commercial Mortgage Backed Securities ("CMBS"), investment grade corporates, high yield corporates, bank loans, preferred stock, municipals, treasuries and agencies.

- Active management employing opportunistic positioning at the sector and security level with an emphasis on relative value, rather than index weightings.
- Bottom-up and top-down portfolio construction, blending rigorous security research and Guggenheim's macro views to capitalize on changing relative values in various fixed income sectors.
- Focus on under-researched areas of the fixed income universe, including sectors not included in benchmark indices.
- Employ qualitative and quantitative tools to understand portfolio risks and opportunities.

Data as of 30.06.2019. Index data source: FactSet. **Performance data quoted represents past performance, which does not guarantee future results.** Current performance may be higher or lower than the performance quoted. Performance data quoted does not include the fund's maximum 3% subscription or redemption fee. Had it been included, the fund's returns would have been lower. Performance shown is net of management fees and operating expenses. The investment return and principal value of an investment in the fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. Returns for periods of less than one year are not annualized.

The minimum initial subscription is USD \$2,500. Each share class has different ongoing charges reflecting the operating expenses, management fees, and payments of the Fund. These charges reduce the potential growth and returns of any investment. Ongoing charges are as follows: A Class (Accumulating) USD: 0.50%, W Class (Accumulating) USD: 1.22%, W Class (Distributing) USD: 1.22%, Z Class (Accumulating) USD: 0.77%, Z Class (Distributing) USD: 0.77%, I Class (Accumulating) USD: 0.77%, I Class (Distributing) USD: 0.77%. The ongoing charge figure is based on expenses for the twelve month period ended 31.12.2018. Ongoing charges include management fee. This figure may vary from year to year and excludes portfolio transaction costs. Please review and give careful consideration to the Fund Prospectus, Supplement, KIID and Annual Report which contain important information including investment objectives, risks, information on minimum initial investments for each share class, fees, expenses and other information.

¹ Class A is closed to new investors. ² Since Inception returns are as of the fund's oldest share class. ³ Weighted average calculations are weighted by flat market value including cash and borrowings. ⁴ Weighted average life (WAL) to worst represents the average number of years before half of the principal balance is repaid excluding borrowings. ⁵ Weighted average effective duration of the securities comprising the fund portfolio. Effective duration takes into account any embedded options (i.e., a put or a call) and reflects the expected change in future cash flows caused by the options in response to changing interest rates. Bank loan duration is calculated using weighted average rate set life (WARSL). ⁶ The current yield is annualized based on the latest quarterly distribution, which is comprised of income distributions as well as any tax equalization adjustments, if applicable, and is net of on-going charges/expenses. As of 30.06.2019. ⁷ Number of holdings based on CUSIP.
