The strategy is designed to use the collective insight of our fixed income investment team and invests across the full spectrum of the fixed income market, including Asset Backed Securities ("ABS"), Residential Mortgage Backed Securities ("RMBS"), Commercial Mortgage Backed Securities ("CMBS"), investment grade corporates, high yield corporates, bank loans, preferred stock, municipals, treasuries and agencies.

Data as of 30.09.2022. Index data source: FactSet. **Performance data quoted represents past performance, which does not guarantee future results.** Current performance may be higher or lower than the performance quoted. Performance data quoted does not include the fund's maximum 5% entry charge or 3% exit charge. Had it been included, the fund's returns would have been lower. Performance shown is net of management fees and operating expenses. The investment return and principal value of an investment in the fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost. Returns for periods of less than one year are not annualized.

The minimum initial subscription is USD \$2,500. Each share class has different ongoing charges reflecting the operating expenses, management fees, and payments of the Fund. These charges reduce the potential growth and returns of any investment. Ongoing charges are as follows; A Class (Accumulating) USD: 0.50%, W Class (Accumulating) USD: 1.21%, W Class (Distributing) USD: 1.21%, Z Class (Accumulating) USD: 0.76%, Z Class (Distributing) USD: 0.76%, I Class (Accumulating) USD: 0.76%, I Class (Distributing) USD: 0.75%, S Class (Accumulating) USD: 0.50%. The ongoing charge figure is based on expenses for the twelve month period ended 31.12.2021. Ongoing charges include management fee. This figure may vary from year to year and excludes portfolio transaction costs. Please review and give careful consideration to the Fund Prospectus, Supplement, KIID and Annual Report which contain important information including investment objectives, risks, information on minimum initial investments for each share class, fees, expenses and other information.

1 Past performance is no guarantee of future results. The A Class was rated, based on its risk-adjusted returns 4-stars for the Overall, 3 stars for 3-year, 3 stars for 5-year and 5 stars for 10-year periods among 362, 362, 297 and 124 USD Flexible Bond funds, respectively. The Morningstar Rating for funds, or "star rating", is calculated for managed products with at least a three-year history and does not include the effect of sales charges. Exchange-traded funds and open-end mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. **2 Class A is closed to new investors.** **3** Inception date of benchmark return is that of the fund's oldest share class. **4** Weighted average calculations are weighted by flat market value including cash and borrowings. **5** Weighted average life (WAL) to worst represents the average number of years before half of the principal balance is repaid excluding borrowings. **6** Weighted average effective duration of the securities comprising the fund portfolio. Effective duration takes into account any embedded options (i.e., a put or a call) and reflects the expected change in future cash flows caused by the options in response to changing interest rates. Bank loan duration is calculated using weighted average rate set life (WARSL). **7** The current yield is annualized based on the latest quarterly distribution, which is comprised of income distributions as well as any tax equalization adjustments, if applicable, and is net of on-going charges/expenses. As of 30.09.2022. **8** Number of holdings based on CUSIP.
