

# Blue Chip Growth Portfolio, Series 21

## Investment Objective

The Blue Chip Growth Portfolio, Series 21 (Trust) seeks to provide total return through capital appreciation and dividend income.

## Key Considerations

- **Established Companies:** The Trust seeks to invest in well established, financially sound companies with attractive financial and competitive characteristics.
- **Growth Potential:** The Trust seeks to identify blue chip companies which possess superior growth and capital appreciation potential.
- **Reduce Volatility:** Guggenheim believes blue chip growth stocks, which are large-capitalization by definition, may help reduce overall portfolio volatility.

Past performance is no guarantee of future results.

<sup>1</sup>The Historical Annual Dividend Distribution is as of 2.14.2019 and subject to change. The amount of distributions paid by the Trust's securities may be lower or greater than the above-stated amount due to certain factors that may include, but are not limited to, a change in the dividends paid by issuers, a change in Trust expenses or the sale or maturity of securities in the portfolio. Fees and expenses of the Trust may vary as a result of a variety of factors including the Trust's size, redemption activity, brokerage and other transaction costs and extraordinary expenses.

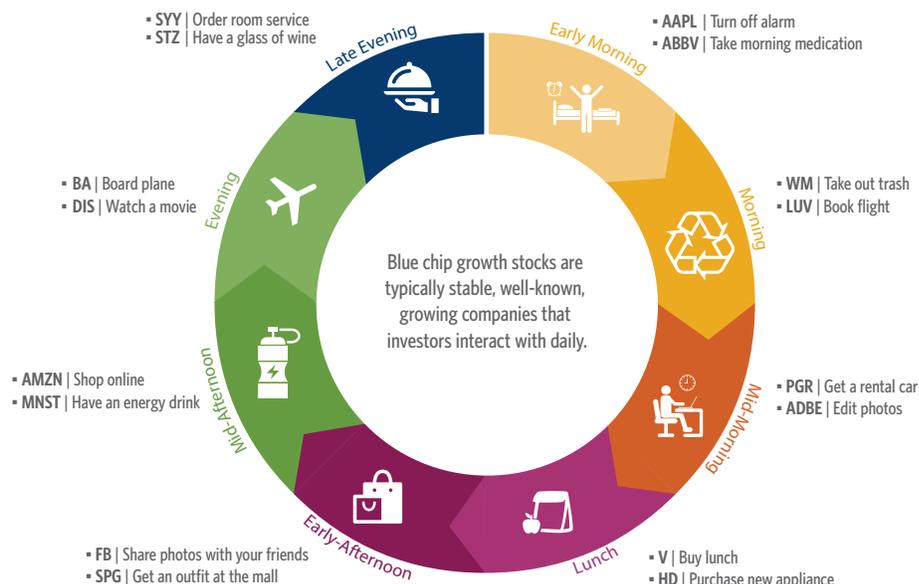

## The Blue Chip Growth Advantage

The advantage of blue chip growth stocks resides in the combination of their potential for financial stability and growth. Guggenheim Funds Distributors, LLC seeks stocks of well established, financially sound industry leaders with attractive growth characteristics that provide the opportunity for stronger capital appreciation than their peers.

To provide efficient exposure to these more stable growth companies, Guggenheim has created the Blue Chip Growth Portfolio. The Trust utilizes a comprehensive quantitative and qualitative methodology to construct a diversified portfolio of attractively valued U.S. blue chip growth companies that have a history of strong competitive positions, above average growth prospects and consistently high profitability.

<b>Total</b>	<b>100.00%</b>

## SALES CHARGES

Sales Charge (S/C) is based on a \$10 per unit offering price.

Standard Accounts	Amount Per Unit	Percentage of Public Offering Price
<b>Deferred S/C<sup>2</sup></b>	\$0.225	2.25%
<b>Creation and Development (C&amp;D) Fee</b>	\$0.050	0.50%
<b>Total S/C</b>	<b>\$0.275</b>	<b>2.75%</b>
Fee/Wrap Accounts <sup>3</sup>		
<b>Creation and Development (C&amp;D) Fee</b>	\$0.050	0.50%
<b>Total S/C</b>	<b>\$0.050</b>	<b>0.50%</b>

<sup>2</sup> The deferred sales charge (DSC) is a fixed amount and will be deducted in monthly installments on the last business day commencing June 2019 and ending August 2019 or upon early redemption. For unit prices other than \$10, percentages of C&D fees, and DSCs will vary but in no event will the maximum sales charge (S/C) exceed the total S/C. Early redemption of units will still cause payment of the DSC. However, an initial sales charge, which is equal to the difference between the maximum S/C and the sum of any remaining deferred S/C charges and C&D, will be charged if the price paid for units exceeds \$10 per unit.

<sup>3</sup> For unit prices other than \$10, percentage of the C&D fee will vary.

The Blue Chip Growth Portfolio, Series 21 is a Unit Investment Trust.

**RISK CONSIDERATIONS:** As with all investments, you may lose some or all of your investment in the Trust. No assurance can be given that the Trust's investment objective will be achieved. The Trust also might not perform as well as you expect. This can happen for reasons such as these: • Securities prices can be volatile. • Share prices or dividend rates on the securities in the Trust may decline during the life of the Trust. • The Trust invests in "growth" stocks. Securities of growth companies may be more volatile than other stocks. If the perception of a company's growth potential is not realized, the securities purchased may not perform as expected, reducing the Trust's return. Because different types of stocks tend to shift in and out of favor depending on market and economic conditions, "growth" stocks may perform differently from the market as a whole and other types of securities. • The Trust invests significantly in the health care sector. As a result, the factors that impact the health care sector will likely have a greater effect on this Trust than on a more broadly diversified trust. General risks of companies in the health care sector include extensive competition, generic drug sales, the loss of patent protection, product liability litigation and increased government regulation. • The Trust invests significantly in the consumer products sector. The factors that impact the consumer products sector will likely have a greater effect on this Trust than on a more broadly diversified trust. General risks of companies in the consumer products sector include cyclicality of revenues and earnings, economic recession, currency fluctuations, changing consumer tastes, extensive competition, product liability litigation and increased government regulation. A weak economy and its effect on consumer spending would adversely affect

companies in the consumer products sector. • Inflation may lead to a decrease in the value of assets or income from investments. **Please see the Trust prospectus for more complete risk information.**

Unit Investment Trusts are fixed, not actively managed and should be considered as part of a long-term strategy. Investors should consider their ability to invest in successive portfolios, if available, at the applicable sales charge. UITs are subject to annual fund operating expenses in addition to the sales charge. Investors should consult an attorney or tax advisor regarding tax consequences associated with an investment from one series to the next, if available, and with the purchase or sale of units. Guggenheim Funds Distributors, LLC does not offer tax advice.
