Blue Chip Growth Portfolio, Series 50

The Blue Chip Growth Advantage

The advantage of blue chip growth stocks resides in the combination of their potential for financial stability and growth. Guggenheim Funds Distributors, LLC seeks stocks of well-established, financially sound industry leaders with attractive growth characteristics that provide the opportunity for stronger capital appreciation than their peers.

To provide efficient exposure to these more stable growth companies, Guggenheim has created the Blue Chip Growth Portfolio. The Trust utilizes a comprehensive quantitative and qualitative methodology to construct a diversified portfolio of attractively valued U.S. blue chip growth companies that have a history of strong competitive positions, above average growth prospects and consistently high profitability.

Daily Encounters with Blue Chip Stocks

People are continuously exposed to the products and services of blue chip stocks. The graphic below details how a typical consumer might interact with many of the holdings in the Blue Chip Growth Portfolio, Series 50 over the course of a day.

The logos listed are trademarks of their respective owners and are used for illustrative purposes only and should not be construed as an endorsement or affiliation with Guggenheim Investments.

Blue chip growth stocks often represent some of the most recognizable and financially sound companies in the market. These iconic companies seek to offer investors:

- Exposure to recognized market leaders
- Stable, reliable growth
- Historically consistent dividends
- Lower volatility

Investment Objective

The Blue Chip Growth Portfolio, Series 50 (Trust) seeks to provide total return through capital appreciation and dividend income.

Key Considerations

- Financially Sound Companies: The Trust seeks to invest in well-established, financially sound companies with attractive financial and competitive characteristics.
- Growth Potential: The Trust seeks to identify blue chip companies which possess superior growth and capital appreciation potential.
- Reduce Volatility: Guggenheim believes blue chip growth stocks, which are large-capitalization by definition, may help reduce overall portfolio volatility.

Past performance is no guarantee of future results. There is no guarantee that the trends and projections noted above will continue or come to fruition and they are subject to change.

Ticker	CBCHZX

1 The Historical Annual Dividend Distribution (HADD) is as of the day prior to trust deposit and subject to change. There is no guarantee the issuers of the securities included in the Trust will declare dividends or distributions in the future. The HADD of the securities included in the Trust is for illustrative purposes only and is not indicative of the Trust's distribution rate. The HADD is the weighted average of the trailing twelve-month distributions paid by the securities included in the portfolio and is reduced to account for the effects of fees and expenses, which will be incurred when investing in the Trust. The HADD will vary due to certain factors that may include, but are not limited to, a change in the dividends paid by issuers, a change in Trust expenses or the sale or maturity of securities in the portfolio. **2** Fee/Wrap-based accounts will not be assessed the deferred sales charge for eligible purchases and must purchase units with a Fee-based CUSIP. For unit prices other than $10, percentage of the C&D fee will vary. **3** The deferred sales charge (DSC) is a fixed amount and will be deducted in monthly installments on the last business day commencing September 2026 and ending November 2026 or upon early redemption. For unit prices other than $10, percentages of C&D fees, and DSCs will vary but in no event will the maximum sales charge (S.C) exceed the total S.C. Early redemption of units will still cause payment of the DSC. However, an initial sales charge, which is equal to the difference between the maximum S.C and the sum of any remaining deferred S.C charges and C&D, will be charged if the price paid for units exceeds $10 per unit or you purchase units after the first DSC payment has been assessed. **4** Estimated Organization Expenses are assessed on a fixed dollar amount per unit basis, therefore, actual organization costs may be more or less than estimates. For additional information on organizational costs and potential caps, please see the prospectus. **5** Trust operating expenses include fees for administration, bookkeeping, the trustee, sponsor, and evaluator. This expense also includes an estimated Trust operating expense based upon an estimated trust size. If the Trust does not reach or falls below the estimated size, the actual amount of the operating expenses may exceed the amount reflected. Please see "Fees and Expenses" in the Trusts prospectus for additional information.

The Blue Chip Growth Portfolio, Series 50 is a Unit Investment Trust.

RISK CONSIDERATIONS: As with all investments, you may lose some or all of your investment in the Trust. No assurance can be given that the Trust's investment objective will be achieved. The Trust also might not perform as well as you expect. This can happen for reasons such as these: • Securities prices can be volatile. The value of your investment may fall over time. Market values of the Trust's securities fluctuate in response to various factors affecting an issuer. Events including but not limited to war, terrorism, natural and environmental disasters, public health emergencies, political and diplomatic events both domestic and abroad, are impossible to predict and may adversely affect the economy, various markets and issuers, which may negatively impact the performance of the Trust and the Trust's ability to achieve its investment objectives. • The Trust invests in "growth" stocks, which may perform differently from the market as a whole. These stocks may be more volatile and may not perform as expected, reducing the Trust's return. • The Trust is concentrated in the information technology sector. As a result, the factors that impact this sector will have a greater effect on this Trust than on a more broadly diversified trust. • The Trust invests in U.S.-listed foreign securities. Investment in foreign securities presents additional risk. Securities of foreign issuers present risks beyond those of domestic securities. More specifically, foreign risk is the risk that foreign securities will be more volatile than U.S. securities due to such factors as adverse economic, currency, political, social or regulatory developments in a country, including government seizure of assets, excessive taxation, limitations on the use or transfer of assets, the lack of liquidity or regulatory controls with respect to certain industries or differing legal and/or accounting standards. • The Trust may be susceptible to potential risks through breaches in cybersecurity. • The Trust is subject to risks arising from various operational factors and their service providers. Although the Trust seeks to reduce operational risks through controls and procedures, there is no way to completely protect against such risks. **Please see the Trust prospectus for more complete risk information.**

Unit Investment Trusts are fixed, not actively managed and should be considered as part of a long-term strategy. Investors should consider their ability to invest in successive portfolios, if available, at the applicable sales charge. UITs are subject to annual fund operating expenses in addition to the sales charge. Investors should consult an attorney or tax advisor regarding tax consequences associated with an investment from one series to the next, if available, and with the purchase or sale of units. Guggenheim Funds Distributors, LLC does not offer tax advice.

This material is not intended as a recommendation or as investment advice of any kind, including in connection with rollovers, transfers, and distributions. Such material is not provided in a fiduciary capacity, may not be relied upon for or in connection with the making of investment decisions, and does not constitute a solicitation of an offer to buy or sell securities. All content has been provided for informational or educational purposes only and is not intended to be and should not be construed as legal or tax advice and/or a legal opinion. Always consult a financial, tax and/or legal professional regarding your specific situation.

Read the Trust's prospectus carefully before investing. It contains the Trust's investment objectives, risks, charges, expenses and other information, which should be considered carefully before investing. Obtain a prospectus at GuggenheimInvestments.com.
