

SMid Dividend Strength Portfolio, Series 13

Investment Objective

The SMid Dividend Strength Portfolio, Series 13 (Trust) seeks to provide dividend income potential coupled with the potential for long-term capital appreciation.

Key Considerations

- **Dividend Growth:** The portfolio is comprised of stocks that have, on average, increased their dividends more than 17% each year over the last five years.¹ However, dividend growth levels may not be maintained.
- **Strengthening Domestic Economy:** Small- and mid-capitalization stocks historically benefit more from domestic growth than their large-capitalization counterparts as revenue is generally derived locally.
- **Balance Sheet Strength:** Guggenheim believes companies that exhibit strong fundamentals and that distribute significant dividends on a consistent basis generally demonstrate financial strength and positive performance relative to their peers.

Security Selection

In constructing the Trust's portfolio, the securities were selected based on the following criteria:

SMid Dividend Strength Portfolio, Series 13

PORTFOLIO SUMMARY

Inception Date	1.21.2020
Termination Date	1.21.2022
Initial Offer Price	\$10.00
Number of Issues	30
Historical Annual Dividend Distribution ²	\$0.2047
Distributions	25th day of each month commencing on 2.25.2020, if any

² The Historical Annual Dividend Distribution (HADD) is as of 1.17.2020 and subject to change. There is no guarantee the issuers of the securities included in the Trust will declare dividends or distributions in the future. The HADD of the securities included in the Trust is for illustrative purposes only and is not indicative of the Trust's distribution rate. The HADD is the weighted average of the trailing twelve-month distributions paid by the securities included in the portfolio and is reduced to account for the effects of fees and expenses, which will be incurred when investing in the Trust. The HADD will vary due to certain factors that may include, but are not limited to, a change in the dividends paid by issuers, a change in Trust expenses or the sale or maturity of securities in the portfolio.

SALES CHARGES

Sales Charge (S/C) is based on a \$10 per unit offering price.

Standard Accounts	Amount Per Unit	Percentage of Public Offering Price
Deferred S/C ³	\$0.225	2.25%
Creation and Development (C&D) Fee	\$0.050	0.50%
Total S/C	\$0.275	2.75%
Fee/Wrap Accounts ⁴		
Creation and Development (C&D) Fee	\$0.050	0.50%
Total S/C	\$0.050	0.50%

³ The deferred sales charge (DSC) is a fixed amount and will be deducted in monthly installments on the last business day commencing August 2020 and ending October 2020 or upon early redemption. For unit prices other than \$10, percentages of C&D fees, and DSCs will vary but in no event will the maximum sales charge (S/C) exceed the total S/C. Early redemption of units will still cause payment of the DSC. However, an initial sales charge, which is equal to the difference between the maximum S/C and the sum of any remaining deferred S/C charges and C&D, will be charged if the price paid for units exceeds \$10 per unit.

⁴ For unit prices other than \$10, percentage of the C&D fee will vary.

The SMid Dividend Strength Portfolio, Series 13 is a Unit Investment Trust.

RISK CONSIDERATIONS: As with all investments, you may lose some or all of your investment in the Trust. No assurance can be given that the Trust's investment objective will be achieved. The Trust also might not perform as well as you expect. This can happen for reasons such as these: • Securities prices can be volatile. • The Trust is concentrated in the financial sector; the factors that impact the financial sector will likely have a greater effect on this Trust than on a more broadly diversified trust. The profitability of companies in the financial sector is largely dependent upon the availability and cost of capital which may fluctuate significantly in response to changes in interest rates and general economic developments. Financial sector companies are subject to the adverse effects of economic recession, decreases in the availability of capital, volatile interest rates, portfolio concentrations in geographic markets and in commercial and residential real estate loans, and competition from new entrants in their fields of business. • The Trust includes real estate investment trusts ("REITs"), which may concentrate their investments in specific geographic areas or in specific property types. The value of the REITs and other real estate securities and the ability of such securities to distribute income may be adversely affected by several factors, including: rising interest rates; changes in the global and local economic climate and real estate conditions; perceptions of prospective tenants of the safety, convenience and attractiveness of the properties; and other factors beyond the control of the issuer of the security. • The Trust invests in securities issued by small- and mid-cap companies, which may have limited product lines, markets or financial resources and may be more vulnerable to adverse general market or economic developments. These securities customarily involve more investment risk than securities of large-capitalization companies. • Share

prices or dividend rates on the securities in the Trust may decline during the life of the Trust. • The Trust may be susceptible to potential risks through breaches in cybersecurity. • Inflation may lead to a decrease in the value of assets or income from investments. **Please see the Trust prospectus for more complete risk information.**

Unit Investment Trusts are fixed, not actively managed and should be considered as part of a long-term strategy. Investors should consider their ability to invest in successive portfolios, if available, at the applicable sales charge. UITs are subject to annual fund operating expenses in addition to the sales charge. Investors should consult an attorney or tax advisor regarding tax consequences associated with an investment from one series to the next, if available, and with the purchase or sale of units.
